OBJECTIVE

Recent Computer Science graduate with strong foundation in programming, algorithms, and software development. Seeking a challenging position to apply my skills in a dynamic and collaborative environment.

Highly motivated and detail-oriented Computer Science graduate with a solid foundation in software development, programming, and computer systems. Proficient in Java, Python, and C++ and HTML. Demonstrated ability to design and implement innovative projects, including IoT based solutions and image processing tools. Adept at collaborating in team environments and committed to continuous learning and skill development. Seeking an entry-level position to leverage technical skills and contribute to the success of a dynamic organization.

EDUCATIONAL QUALIFICATIONS

- B. TECH (Computer Science) from TIEIT June 2024.
- High School Diploma (Diploma in Plastic Mould Technology) from CIPET Jul 2021.
- BBA from IPC Bhopal Jun 2022.

OTHER ACADEMIC DETAILS

- Got Skill India certification of Introduction to Machine learning with grade A.
- Got google introduction to digital marketing certification.

TECHNICAL KNOWLEDGE & SKILLS

- **C++**
- **Core Java**
- **Python**
- **MySQL**
- **HTML**

- CSS
- JavaScript
- React
- Figma
- Git and GitHub
- Basic knowledge of Typescript
- Basic knowledge of Node js
- Data structures and algorithms
- Bootstrap
- Django

Projects

University Management System

- **Description:** Developed a comprehensive University Management System to handle administrative tasks such as student enrollment, course management, and grade tracking.
- **Technologies:** Java, MySQL, Swing (Java GUI)
- **Role:** Developer
- **Responsibilities:**
 - Designed and implemented the system architecture using Java.
 - Developed user interfaces using Swing for easy interaction.
 - Implemented database management with MySQL for storing and retrieving data.
 - Collaborated with team members to integrate various modules and ensure system functionality.
 - Conducted testing and debugging to enhance system performance and reliability.

Travel and Tourism Management System

- **Description:** Developed a robust Travel and Tourism System to manage and automate bookings, itineraries, and customer information for a travel agency.
- **Technologies:** Java and MySQL,
- **Role:** Developer
- **Responsibilities:**

- Designed the system architecture and database schema using Java and MySQL.
- Implemented user authentication and authorization for secure access to system features.
- Conducted system testing and debugging to ensure high performance and reliability.

STRENGTH & HOBBIES

- Hard & Smart Working
- Honest & Punctual
- Good Communication skill
- Playing guitar
